Weather

A MONTHLY MAGAZINE FOR ALL INTERESTED IN METEOROLOGY

Vol. 25

1970

Published by the

ROYAL METEOROLOGICAL SOCIETY

49 Cromwell Road, London, S.W.7

CONTENTS

COVER PHOTOGRAPHS

January	Sunset behind the University of Alaska heating plant, C. S. BENSON
February	'The Biglin Brothers Racing' by THOMAS EAKINS (1844–1916)
March	Circumzenithal arc? A. W. CULMAN
April	Convective motion in water over a surface with a temperature near 0°C
May	Members of the Royal Air Force parachute display team
June	Concorde 001, taking off on test from Toulouse, BRITISH AIRCRAFT CORPORATION
July	Cloudscapes taken on Kodak infra-red 'colour' film
August	Industrial pollution near Aosta, northern Italy, N. D. P. HUGHES
September	Shower falling from an isolated developing cumulonimbus, D. WINSTANLEY
October	Sheet erosion at Queenstown, Tasmania, M. W. NUNN
November	Looking towards Newhaven from Seaford, Sussex, K. G. BAKER
December	Snow penitents on Mount Demavand, Iran, B. A. BENANDER

	Pages		*Pages*
JANUARY	1–44	JULY	293–337
FEBRUARY	45–88	AUGUST	339–388
MARCH	89–138	SEPTEMBER	389–435
APRIL	139–186	OCTOBER	437–476
MAY	187–241	NOVEMBER	477–517
JUNE	243–291	DECEMBER	519–564

INDEX

Titles in italics denote book reviews

Authors' name in CAPITALS

* denotes Letters to the Editor

Aberdeenshire diary, 1783 to 1792, Weather notes from an, 553
African flood disaster, September 1969, The North, 390
Airstream rainfall in Scotland, Influence of topography and exposure on, 379
Alaskan dogs*, 287
ALDRICH, J. H., Convergence zones in southern California, 140
Altitude on rainfall in Scotland, Effects of*, 41
Amateur observers, Directory of, 328
America, Weather in Europe and, Readers' Forum, 282
Andes glow, Mountain-peak potential-gradient measurements and the, 350
Andes, One year in the Peruvian, 487
Anemograph records, A device to aid manual analysis of, 499
Anemometer switch, An improved, 180
Anticyclonic gloom, 271
Anticyclonic rotation of tornadoes queried, 327
Arctic sea-ice in summer, 215
Art, Climate in, 46, *289
Atmospheric pressures, Extremely high, 19
Atmospheric surface layer above the tropical Atlantic, Measurements in the, 419
Automatic telemetering network – photograph – British Railways, 548
Autumn of 1969 in Brighton, The mini, 299
Autumn of 1969, The mini*, 515
AYOADE, J. O., The seasonal incidence of rainfall, 414
BAKER, T., Simple summer index*, 432
Barents' halo complex, The*, 335
BARNETT, D. F., Weather in Europe and North America, Readers' Forum, 282
BARTLETT, J. T., Intracloud lightning, 317
BBC shipping forecasts*, 238, 513
BBC weather broadcasts*, 475
Ben Nevis Observatory: A plaque unveiled, 77
BENSON, CARL S., Ice fog, 11
BERESFORD, B. D. H., 'Green sun' observed in Cornwall, Readers' Forum, 133
Biennial oscillation, May and*, 237
BIGNELL, K. J., Changing ways of the weather?*, 239
Bjerknes, After, 175
'Black-bulb in *Vacuo*' readings, Decline of*, 563
BLANCHARD, W., Weather broadcasts*, 336
BONACINA, L. C. W., The winter of 1950–1*, 513
BOOTH, B. J., The *Royal Charter*, 550
———, Unusual lunar arc*, 135
BOTLEY, Cicely M., Climate in art*, 289
———, Halo complex 22 May 1969*, 135
———, Lunar rainbow*, 287
———, Shetland weather lore*, 514
———, The Barents' halo complex*, 335
———, Weather at Canterbury 29 December 1170*, 562
BOULBY, W., BBC shipping forecasts*, 238
BREWER, R., BBC weather broadcasts*, 475
Brighton, The mini Autumn of 1969 in, 299

British gales of the past fifty years, Notable, 57, *335
British Isles, Changes in duration and frequency of synoptic types over, 123
BROADBRIDGE MONGER, J. S., The frost of 30 September 1969*, 184
BROWN, A. E., Lightning and electricity pylons*, 85

CANOVAN, R. A., A November snowfall in south-east England, 478
CAHIR, J. and H. NEUBERGER, *Principles of climatology*, 429
Cairngorms, Seasonal changes of snow cover on the, 211
California, Convergence zones in southern, 140
Canterbury 29 December 1170, Weather at*, 562
CARR, T. R., Meteorological philately*, 560
Centenaries, What a difference twenty years makes: A comparison between two, 330
Charter, The *Royal*, 550
CHASE, P. H., Fifty years of weather insurance, 294
Cheshire thunderstorm, A, 495
CHUTER, I. H., A sudden rise of temperature at Edinburgh, 159
———, An example of laminar wind flow, 373
Christmas cards, Royal Meteorological Society*, 288
Christmasses, Cold*, 562
CLARK, R., Persistent snowdrift in the Northern Pennines*, 41
———, Snowdrift patterns on vertical surfaces, 210
CLARKE, N. E. F., Green ray*, 335
CLARKE, P. C., Arctic sea-ice in summer, 215
———, Lightning and electricity pylons*, 85
———, Snowfalls over S. E. England*, 84
———, The frost of 30 September 1969*, 40
———, Trends in spring weather*, 514
Climate differences, Shelter and local, 439
Climate in art, 46, *289
Climates, The usefulness of ships' logbooks in the synoptic analysis of past, 520
Climatic change, The nature of, 465
Climatic review, The 1960's – a, 365
Climatic variation and our environment today and in the coming years, 447
Climatology, Computerised, 319
Cloud development and distribution around Khartoum, 411
Clouds and weather, 558
Clouds. Some notes for readers new to meteorology, 166, 281
Cod migration and climate*, 473
Cold nights*, 473
Cold, Some like it*, 85, 286, 475
Cold spells in May, Warm and, 229
COLLIER, C. G., Fog at Manchester, 25
Computerised climatology, 319
Concorde, Weather and, 254
Conservation and meteorology: some conclusions, 463
Convection, Upside down, 150
Convective cloud base from aspirated psychrometer readings, A graphical method of obtaining relative humidity, dew point and, 361
Convective storms – photographs – J. BURKE and G. B. POPOV, 371
Convergence zones in southern California, 140
Cumulonimbus approaching Hokitika, – photograph – F. M. COLLYER, 372
Cyclone *Monique*, 557

D'ALLENGER, P. K., Parachuting and the weather, 188
DAY, J. A. and G. L. STERNES, *Climate and weather*, 512
Dew point and convective cloud base from aspirated psychrometer readings, A graphical method of obtaining relative humidity, 361
Directory of amateur observers, 328
Disaster, September 1969, The North African flood, 390
DIXON, F. E., The green ray*, 184
